

Lenovo ThinkPad

Boasting modern design, impressive performance, and exceptional durability, the portable Lenovo ThinkPad E16 Gen 2 delivers trusted ThinkPad innovation at remarkable value. Powered by AMD Ryzen™ 7000 Series processor, this notebook delivers high-performance processing for intensive business computing, while onboard AMD Radeon™ graphics embolden your creative potential. Two SODIMMs and dual SSDs improve flexibility, enabling configuration and expansion to meet your needs, and the ability to upgrade RAM and storage extends the lifespan of this get-it-done device.

Lenovo's built-in AI enhancements optimize performance and enrich videocalls, with smart features like AI-based background blurring, auto-framing, digital avatar, and noise cancellation. Fully immerse yourself as you collaborate and create, with a huge 16:10 display at a 91.2% screen-to-body ratio, a FHD RGB camera with vHDR, and improved audio with Audio by Harman. The new keyboard experience includes a larger touchpad and a TrackPoint Quick Menu for efficient function control—an easy double-tap of the familiar red point is all it takes to multitask with ease. Plus, wherever the workday takes you, this Lenovo ThinkPad stays as cool as you are, thanks to the improved thermal design.
